The season was certainly shortened by the poor winter weather, and this summary is short given there were so many races canceled including over a half dozen ASRA races and the Eastern PA Ski Council Race. So here goes a quick summary of results from the shortened ASRA season championships **highlighting the Main Line Ski Team** participants:

The ASRA Championships were moved from PICO to West Mountain a couple of weeks in advance and what a great decision it turned out to be. PICO's terrain and days of operation got constrained by the lack of snow, and it was evident we had to relocate.

West Mountain turned out to be a terrific race venue with one of our longest GS and SL tracks on a newly developed slope serviced by a new chair lift. And the race crew was tops in terms of quality of service, course setting and overall support of ski racing in general. The Championships were composed of three events, with a super G on Friday, the GS finals on Saturday and the customary first SL race of the 2017 season on Sunday. Each event ran one minute plus for just about everyone. The weather was on the warm side and was a welcome relief from the February race weekend also at West Mountain when morning temperatures were about 10 below zero. The West Mountain crew worked hard to maintain the courses through the warmer temperatures and had us off the hill early each day before the snow softened too much for safe racing.
